Reflectance confocal microscopic presentation of basosquamous carcinoma.

Oliveira A, Zalaudek I. J Eur Acad Dermatol Venereol. 2017 Jun 16. doi: 10.1111/jdv.14415.

ABSTRACT

Basosquamous carcinoma (BSC) is considered a variant of basal cell carcinoma (BCC) associated with squamous differentiation. It may display local aggressive behavior, and increased potential for recurrence and metastases. Therefore, early and appropriate treatment will have prognostic repercussion.
